## SUMMARY

---

Frontend Developer with 1+ years building responsive, high-performance web applications using React.js, Next.js, and TypeScript. Specialized in interactive UI/UX with GSAP animations, state management with Redux Toolkit, and full-stack integration (Node.js, Express, MongoDB). Strong track record delivering scalable, accessible components and optimized applications. Seeking a Frontend or Full-Stack Developer role to build impactful products.

## SKILLS

---

### Languages

HTML5, CSS3, JavaScript (ES6+), TypeScript

### Frontend

Next.js, React.js, Tailwind , Responsive Design

### State & APIs

Redux, Context API, REST APIs, Axios, Fetch API

### Authentication

JWT, OAuth 2.0, Google OAuth

### Tools

Git, GitHub, npm, Vite, VS Code, Chrome DevTools

### Performance

SEO, Lazy Loading, Lighthouse

## PROJECTS

---

### Hemma – Freelance Web Project 🔗

Hemma is a full-stack freelance web application featuring JWT-based authentication and Google OAuth with 2 authentication methods. The project integrates Cloudinary for image upload and media management and RESTful APIs for frontend-backend communication. I developed reusable responsive UI components, protected routes, and secure authentication flows using JWT and HttpOnly cookies.

### Velora – E-commerce Web Application 🔗

Developed a responsive e-commerce web application using Next.js, JavaScript, and Tailwind CSS, building **15+ reusable components** and **5+ responsive sections** across desktop, tablet, and mobile devices. Implemented GSAP animations and interactive UI elements, improving user engagement and creating a smooth shopping experience. Applied mobile-first development, component-based architecture, and performance optimization to deliver a scalable and maintainable frontend application.

### Estate-Hub 🔗

EstateHub is a responsive static real estate website built with HTML, Tailwind CSS, and Next.js. Developed a responsive interface with reusable UI sections, smooth interactions, and mobile-first layouts, focusing on performance, usability, and user experience.

## EDUCATION

---

### Tanta University

Faculty of Computers and Information Bachelor's Degree in Computer Science  
2025 – Present (Secend-Year)

09/2025 – 06/2029
